

## Localised genes

- 100

50

- 150
- 200

## Reactome group (n>2 significant)

- Signal Transduction
- Drosophila signaling pathways
- Metabolism Metabolism of RNA
- Met
  - Metabolism of proteins
  - Immune System
  - immune Syste
  - Transport of small molecules
  - Cell Cycle
  - Hemostasis
  - Programmed Cell Death
  - DNA Replication
- other
